NOTE: Power tools should not be used to assemble this product.

STEP 1

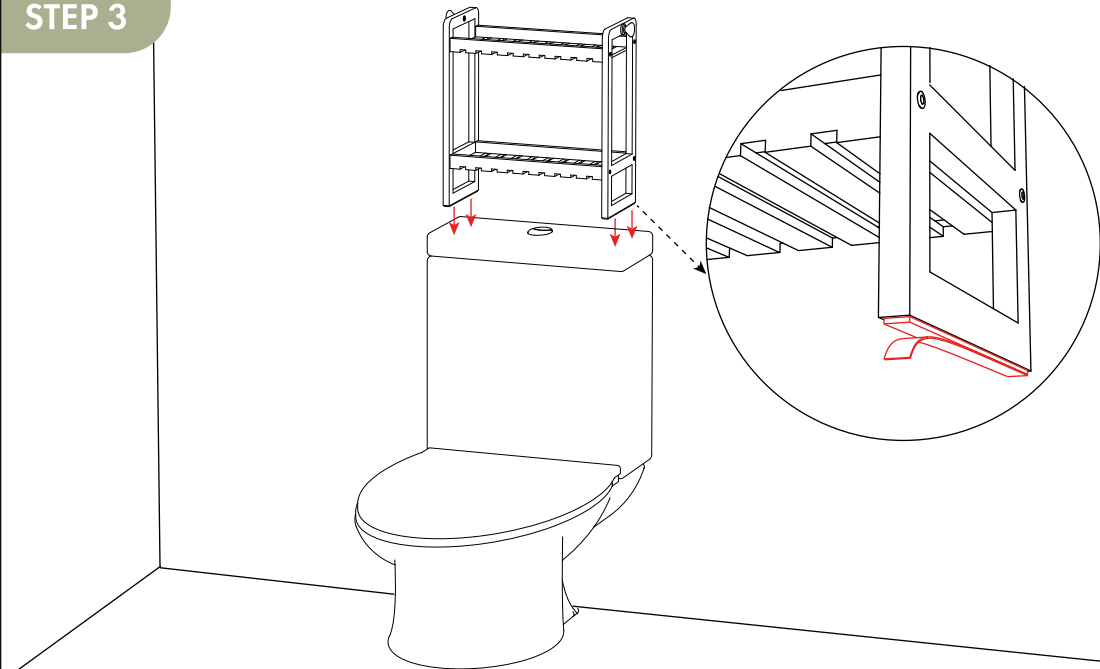

Use eight screws **A** to attach two shelves **2** and side boards **1**, then tighten them in a clockwise direction with the wrench **B**.

STEP 2

Hold the screws **C** with one hand while tightening the hooks **3** in a clockwise direction with the other hand.

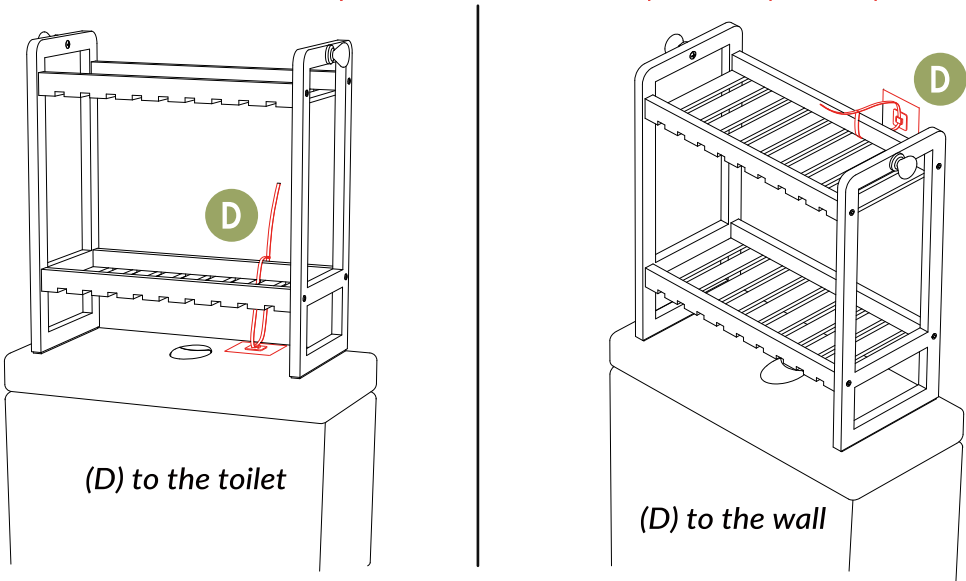

STEP 3

Clean and dry the top of the toilet. Remove the adhesives from the bottom of the shelf and place the shelf in a suitable position.

STEP 4

Anti-tipping Installation
(Note: If you don't want to install, please skip this step.)

(D) to the toilet

(D) to the wall

How to install : Use the fastener tie **D** through the hole of the adhesive **D** and tighten it to the toilet frame. Then trim any excess with scissors if needed.
